Read-only behavioral software evidence.

01 Session / evidence summary

One parent MYELIN session. Study is the shared context for off-task recovery (SECANT) and approved-break return (COSECANT).

Session scope

Field	Recorded value	Field	Recorded value
Parent MYELIN session	205	Started	28 Sep 2026 22:47:00
Closed	28 Sep 2026 23:29:45	Session lifecycle	Stopped
Recorder evidence state	FINALIZED	Recorder coverage	Bounded observation
Pending / dropped recorder items	0 / 0	Report timezone	Asia/Calcutta
Study blocks	1	Recorded SECANT episodes	0
Validated SECANT episodes	0	Excluded SECANT episodes	0
Recorded COSECANT breaks	1	Validated COSECANT breaks	1
Study visits	10		

Finalized means the recorder has committed its final flush. It does not certify that every child record is valid. Excluded and unavailable evidence is disclosed separately.

02 SECANT / study recovery

A verified-return event is not a recovered episode. Episode closure alone is not recovery. Behavioral evidence_gap is distinct from recorder recording loss.

No data

03 Study / shared context

Recorded Study timer elapsed is not Supported Foreground Duration. Resource captions describe recorded observations; exact resource identity remains authoritative.

05 COSECANT / approved-break return

Completed allowance means its deadline was reached. Confirmed return requires the validated same-break proof chain. No recorded confirmation does not mean failed return.

07 Evidence quality / reading notes

This is read-only behavioral software evidence. It makes no neurological, clinical, attention or cognitive claims.

Title not recorded: absent title metadata. Not recorded: an optional fact was never captured. No data: a readable scope contains no applicable records. Unavailable: required evidence is unreadable or invalid.

Finalized recording does not imply complete sensing. Supported foreground spans contain only supported observations; gaps are not filled.

Native identities and proof tokens remain internal provenance. Human-facing SEC and COSEC aliases are the existing persisted presentation identities.
