2
COSECANT breaks in the selected period

Selected period: 17 Sep 2026 – 19 Sep 2026, inclusive, in local time (UTC+05:30). Records are included when their recorded start time is on or after 17 Sep 2026 00:00 and before 00:00 on the day after the last date. Only records belonging to this period enter the report: counts, outcome tables, timelines, findings and this overview are all built from those records. Events of an included record that fall outside these dates are shown and marked.

Candidate-only records that never became a formal MINE episode are not episodes and are not listed.

STUDY MODE / Study Context

Study records

STUDY BLOCKS	SNAPSHOTS	COMPLETE RECORDED	RECORDED UNIT
1	3	1	Study block
started in the selected period	recorded for these blocks	blocks with a COMPLETE snapshot	as recorded by Study Mode

Recorded unit: the study block. A block belongs to the period in which its recorded start time falls. Blocks that were prepared but never started have no start time and are not assigned to a period. Shutdown markers that carry no study block are not study blocks and are not listed.

Last recorded state

State	Blocks
Completed	1

Grouped from each block's final recorded snapshot.

Study block index

Started	Subject / task	Planned	Elapsed	Last state	Snapshots
17 Sep 2026 09:00:00 2026-09-17T03:30:00Z	**Neuroscience** Reading	45 min (2,700 s)	2,700.00 s	COMPLETED	3

Subject and task are the text recorded by the user for each block.

Study block records

Durable snapshots in recorded order. Snapshots recorded outside the selected dates are marked.

Study block · 17 Sep 2026 09:00:00 — COMPLETED

STARTED	COMPLETED	SUBJECT	TASK	PLANNED	ELAPSED (LAST SNAPSHOT)

Recorded Study resource evidence

Observed spans only. Gaps are not counted as focused time or silently joined.

PRIMARY / LATER qualified resources

Role	Resource	Qualified (UTC)
PRIMARY	Recorded Study source	2026-09-17T03:30:00Z

Study visits and observation evidence

Resource	Supported foreground	Classification	Confirmation
Recorded Study source	300.00 s	STUDY_ALIGNED	STUDY

Duration is supported only within each validated visit. Classification and confirmation come from that visit's own evidence.

> Study Jump: no validated connector was recorded for the selected blocks.

SECANT

Study off-task recovery evidence

FOUNDED EPISODES	RECOVERED EPISODES	OPEN / INCOMPLETE
3	1	1
started in the selected period	validated recovered closure	not a failed recovery

SECANT verified-return events, recovered episodes and COSECANT return confirmations are distinct evidence units.

Exclusive stage distribution

Highest displayed stage	Episodes
SECANT-1	1
SECANT-2	1
SECANT-3	1

Each validated episode is counted once, at its highest displayed stage.

Recovery event counts

Recorded event	Events
Action intents	0
Return attempts	3
Verified-return events	2
Recovery interruptions	1

Episode closure reasons

Reason	Episodes
Open / incomplete	1
Evidence gap	1
Recovered	1

SECANT episode records
